AET CAPABILITIES

AK Engineering & Technology is a HVAC (Heating, ventilation & air condition) system contracting company in Bangladesh.

Our capabilities include supplying, installing, testing, commissioning and maintaining air conditioning equipment and its related products (such as cooling towers, control panels, pumps pipes duct work complete in all respect) for the end user. Our clients include commercial, industrial as well as residential users.

The activities of this organization are system design, estimation, supply, installation, testing, commissioning and maintenance of central air conditioning system (HVAC) for

- Multi storied commercial/office buildings
- Hospital building (OT,ICU,CCU)
- Government buildings, hotel, auditorium
- Pharmaceutical industry (including clean room)
- Hospital/diagnostic laboratory (bio safety level 2,3)
- Telecommunication switch room (msc/bsc/bts)
- Computer data centre (server room)
- Industrial & manufacturing plants.
- Residential building etc.

Range of product & service offered by AK Engineering & Technology

AK Engineering & Technology is well experienced of system designing, supplying, installing, testing, commissioning and maintaining of all types of air conditioning/HVAC (Heating, ventilation & air condition) system namely

- a) Central air conditioning system with water cooled chiller.
- b) Central air conditioning system with air cooled chiller.
- c) Roof top package type air conditioner
- d) Ducted split type air conditioner
- e) VRF system air conditioner
- f) Precision type air conditioner
- g) Split type air conditioner (wall, ceiling, cassette, floor standing)
- h) Power generator, cctv camera,
- i) Lift, substation, industrial exhaust fan, supply fan, duct work.
